UPDATING YOUR LINKS PROGRAM

The main executable file for LINKS is called GOLF.EXE and is located in the LINKS directory on your hard drive. An upgrade version of this file has been included with this Championship Course. If the version on your hard drive is an older version, you should replace it with the upgrade version included with this Championship Course.

Follow the procedure below to determine whether or not to replace your GOLF.EXE file.

STEP 1: *Determine the version number of the GOLF.EXE file on this Championship Course Disk. Make sure the Course Disk #1 is in the floppy drive and type:*

A:GOLF /V [Enter] (Use **B:GOLF /V** for the B: drive)

The version number displayed is the UPDATE VERSION NUMBER. You may want to write it down.

STEP 2: *Determine the version number of the GOLF.EXE file on your hard drive. Make sure you're still in the LINKS directory and then type:*

GOLF /V [Enter]

- a) If the game starts, you have an old version. Proceed to STEP 4.
- b) If the version number is displayed, proceed to STEP 3.

STEP 3: *Compare the version numbers.*

If the GOLF.EXE file on the Course Disk #1 (STEP 1) has a larger version number, then proceed to STEP 4.

Otherwise, STOP. DO NOT PROCEED. Your current version is newer.

STEP 4: *Replace the older GOLF.EXE file on your hard drive with the newer GOLF.EXE file from Course Disk #1. Do the following:*

- a) Make a backup copy of the current GOLF.EXE file in case something goes wrong.

Type: **COPY GOLF.EXE GOLF.BAK** [Enter]

- b) Copy the new version of GOLF.EXE from the diskette to your hard drive:

Type: **COPY A:GOLF.EXE** [Enter]

(Use **COPY B:GOLF.EXE** [Enter] for the B: drive)

Your LINKS Program Update is now complete.
